UNLEASHING THE TALENT

JEE-NEET PROGRAM

This year we reached out to more schools. We visited the schools and informed students about our BECT Talent Search Test. The tests were conducted from April to July at various schools of district Durg for the students of class 8th-10th. More than 1200 students appeared in the screening tests.

BECT

Through this test we have selected best 100 students and by sponsoring their JEE-NEET Coaching Fees we give them the wings of faith to achieve their dreams.

STRENGTH IN UNION

AWARDS

BECT collaborated with Rotary Club of Bhilai Pinnacle to start the skill development project for class 12 school children. To acknowledge this we received "Award for Excellence 2021-22"

PERSONALITY GROOMING CLASSES

Regular personality developing classes are organized to get the best out of them by encouraging their confidence level.

“EMPOWERING GIRLS WITH EMPLOYABLE SKILLS”

It's incredible when skill and passion comes together. The skill development classes proved this statement. Adding more magic to the world, BECT Skill Training programme raise the number of beauticians, fashion designers and interior designers locally.

This program was initiated by BECT last year. This year we intend to provide a four months training to 45 students and make them industry ready.

COMPUTER EDUCATION

With our Computer Education programme we provide basic training as well as advanced courses to our students, so that they can have better career perspectives. We plan to make every student proficient in computers and be technology friendly.

OUR PROUD PARTNER - DR. DEOTIRTH SAHU

It was such an incredible experience having a partnership with BECT. Words will not be sufficient to show how thankful I am for this cooperation with this organization. I want to express my gratitude towards the various facilities and benefits which the organization provides to its students, these benefits motivate me and encourage me to work wholeheartedly.

I got the opportunity to impart the Education regarding Spoken English and personality development for those students who were financially deprived, the keen learners, dedicated students drew tremendous results and brought laurels for their family, BECT and my institute.

I would like to extend a heartfelt thank you for the initiatives of encouraging and providing education for the needy students.

Your contribution is crucial to the success of the courses. You helped students to achieve their goals.

Here's what a student said: "It is important for me and my family to become ordinary to extraordinary. Your organization is making a tremendous impact on so many students . Thank you for organizing such free classes for us."

MESSAGE FROM ADVISORY

What a fantastic way of giving back to the community which was part of the ecosystem that nurtured the alumni of Bhilai schools who took upon themselves to create BECT to support their upcoming generations! There must have been something in the value-system that was distilled into their young minds by the teachers that the patrons of this trust have embarked on this arduous journey.

Founded back in 2014, with the efforts of a wide alumni network, in line with our District Education Department's mission, 'Better Education for all', it has surely come a long way. The core activities that this organization caters to have been commendable and has never missed to garner applause viz. the merit-cum-means scholarship, free JEENEET coaching to deserving students, Skill Training, Spoken English classes, computer coaching, NTSE classes and many more. With District Project coordinator, Durg BECT participated in "Padhna Likhna Abhiyan" and imparted functional literacy to more than 300 non-literate and non-numerate adults. With such noble deeds already in its kitty, BECT is adding a new feather to its cap every passing day.

Abhay Jaiswal

DEO: District
Education Officer,
Durg.

(From Dec 2021 -Till)

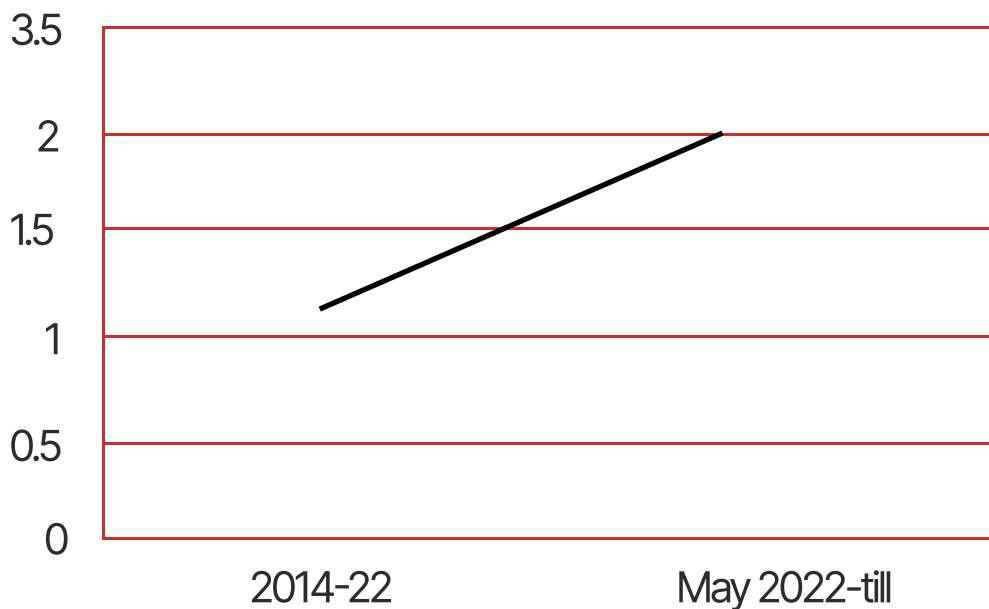

My association with BECT is a shade over six years. It provides me with an opportunity to fulfill my unrealized goals vis-a-vis education.

My best wishes to BECT in whatever it endeavors to attain for the benefit of the target groups

BECT-O-METER

BECT have been serving the society for last 8 years responsibly . We are proud to share the data of primary beneficiaries per day for the past years have been 1.13 and this has jumped to 2 in the last 8 months.

This implies we have been able to reach out to two new students everyday!

MEET OUR SHINING STAR

GAURAV SAHU
(IIT BOMBAY)

I am very pleased to say that my experience of associating with BECT has been excellent and I feel it is a privilege too.

I am sincerely thankful to BECT for their valuable guidance and constant support. BECT has indeed played a important role in my JEE preparation. I owe my success to BECT and my parents.

Everyone says go to IITB and you are set for your life. This is a statement full of ifs and buts, but I would like to share my journey 2-month journey at IITB and try to give a perspective on how is it different from anything you have ever experienced before.

The first and the most important pillars of IIT Bombay are its existing student who are the whole and soul of everything happening here from orientation to conducting big fests like techfest and mood indigo it is these people whom you will learn the most from. Then comes the professors who are very well-versed in their subjects and very approachable at the same time which makes learning fun. But what makes IITB better than any other institute in the country is the level of exposure you get as a student. Various workshops seminars and guest lectures are going on in the institute throughout the year which gives you a snippet of fields other than engineering like finance, banking, biology and also a lot of pure sciences, apart from these briefings which are very important to ignite your interests there are also provisions to dive deep into these subjects by connecting with the speakers or through various in-house initiatives.

Another thing that a lot of people turn a blind eye to when talking about IITB is the co- curricular, our college has world-class facilities for almost every sport, also the college has a very rich heritage of cultural clubs which help in your overall development. I have only seen myself improve as a person since I walked through those gates and I am sure I'll continue to do so during my 4-year journey at this prestigious college. In the journey with BECT. I have actually seen desires been converted in to realty. It's a great Privileged to be a Part of BECT, The Philanthropic work creates a great Influence on Society and Changing Minds of people for a brighter future of the Underprivileged children's.

At last I would say, I would love to be part of this wonderful organisation creating milestones every year.
